

KRANMEISTER

Roof tile tongs

Low dead weight and long reach

- Kranmeister aluminium roof tile tongs are suitable for all roof tile formats.
- Due to their low dead weight, they have a greater reach when used with a crane.
- Kranmeister roof tile tongs make it possible to cover the roof surface quickly.
- We offer you a comprehensive overall programme that will meet your requirements.
- See for yourself. You will find tile tongs for all formats, from the single-row roof tile tongs to the all-round tongs, which even defy the hard daily haulage work.
